

LIBRARY TIPS #5
GET TO KNOW THE LIBRARY'S
RESEARCH SUPPORT SERVICES

DO YOU NEED TO...

Conduct an Advanced Literature Search?

We carry out searches on PubMed, Scopus, Cochrane Library, Web of Science, preprints repositories, trial registers...

Set up your research identifiers?

Creating personal IDs (ORCID, Scopus Author ID, Web of Science Researcher ID, CiênciaVitae) and updating your CV.

Process systematic reviews or other scientific evidence synthesis?

We help setting the research question & search strategy, with registration, protocol development, results deduplication, data extraction and PRISMA diagrams...

Choose where to publish?

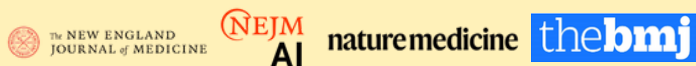

We help select suitable journals for your work and identify predatory editors/ journals. We also offer Open Access guidance and help standardize institutional affiliations.

Do you want to publish in Open Access Journals free of charge? Ask us about the transformative agreements.

Find full-text articles?

If you need an article to which you don't have access, feel free to ask us if we can obtain it. We can find that PDF for you!

Perform a bibliometric analysis?

We analyse scientific outputs of individual researchers, investigation units, scientific areas and institutions (through publication's impact indicators and metrics and using data visualization tools).

Manage Research Data?

As part of NOVA.ID Research Management Competence Center, we believe in the importance of promoting good practices for research data management. We will soon present workshops and mentorship programs!

Training?

We offer various training sessions on the topics mentioned above and more! Additionally, we can provide one-on-one and group sessions upon request.

WE CAN HELP YOU @ THE LIBRARY

Enhance your research potential!
